PROFILE SUMMARY

Skilled Web Developer with expertise in **Python** and **Django**. Proficient in **HTML**, **CSS**, **JavaScript**, **AWS**, **MySQL**, **Linux**, **API**, **GitHub**, and **Networking**. Eager to contribute to a dynamic development team, applying strong programming and design skills as a fresher.

INTERNSHIP EXPERIENCE

[Cyber Security Intern | Internz Learn \(10/2023 - 12/2023\)](#)

- Proficient in **network security principles** including **firewalls**, **intrusion detection systems (IDS)**, and **VPNs**.
- Skilled in identifying and mitigating **cyber threats** such as **malware**, **phishing attacks**, and **DDoS attacks**.
- Experienced with **scanning tools** like **Nmap** for port scanning, **vulnerability scanning**, and **network mapping**.
- Familiarity with ethical hacking methodologies including **foot printing**, **scanning**, and **SQL injection techniques**.
- Proficient in **TCP/IP**, **HTTP**, and **FTP networking protocols**.

PROJECTS

1. [ISBR COLLEGE MANAGEMENT SYSTEM](#) 04/2023

Tools: **HTML**, **CSS**, **JAVASCRIPT**, **PYTHON**, **DJANGO**, **SQL**

- Admin: Full control over profiles, courses, subjects, and insights.
- Staff/Teachers: Monitor student performance, attendance, and leave.
- Students: Check attendance, grades, timetables, and provide feedback.
- **Data Insights (via summary charts) resulting in a 15% improvement in decision-making processes.**
- Backend: Python Django for user authentication, data models, views.
- Django Admin Panel: Simplifies system management for admins.

2. [ATTENDANCE MANAGEMENT SYSTEM](#) 10/2022

Tools: **HTML**, **CSS**, **JAVASCRIPT**, **PYTHON**, **DJANGO**, **SQLITE**

- Administrators: Manage user accounts, courses, timetables, and data access.
- Staff Members: Optimized attendance monitoring, assessment mark input, and **review workflows, resulting in a 20% reduction in manual efforts and time saved for staff members.**
- Students: View their attendance, assessment marks, and personal timetables.
- Backend Technology: Python Django Used to build the backend.

EDUCATION

BCA - Bachelor of Computer Applications

2020 - 2023

College: ISBR - International School of Business Research, Bangalore University

CGPA: 7.5

School : Mount Saint Joseph Matriculation Higher Secondary School, **Tiruvannamalai**

12th Grade (2018): Percentile: 53%

10th Grade (2016): Percentile: 80.6%

SKILLS

• Frontend Development

- HTML
- CSS
- JavaScript

• Backend Development:

- Python
- Django
- PHP

• Version Control:

- Git - GitHub

• Databases:

- SQL - SQLite

• API Technologies:

- RESTful APIs

• Cloud Services:

- AWS (Amazon Web Services)

• Operating Systems:

- Linux

• Networking:

- VPN Implementation
- Network Security

• Security:

- SQL Injection Prevention
- Cross-Site Request Forgery (CSRF) Protection

CERTIFICATION

- Acquired [Python proficiency through GUVI certification](#), showcasing diverse problem-solving skills.
- Completed [Cognizant's "Ready, Set, Agile" virtual program](#) endorsed by Cognizant's President and Forage's CEO.
- Certified in React.js ([Cutshort](#))
